
Online bingo tips

Written by Matt Kennedy | Last updated: 27 May 2015

Bingo's been around for years. Your great-grandmother played it, your grandmother played it, your mother plays it, and now you find yourself joining in on the family tradition of bingo playing. Everyone likes to think themselves as an expert. You'll have many people trying to give you tips on a daily basis. Each person plays differently, but the thing about bingo is if you don't have the inside info, you'll never know how it's going to play out; help yourself a little by being a little savvy and acquiring as much knowledge as possible.

Is there really a chance of hitting it big?

Of course there is. You can play as little as much as you like when playing online bingo, and sometimes it only costs a few pence a game. **Bingo jackpots** vary, but they've been known to hit £1 million before – imagine that. Bingo can be compared to playing lotto, but with bingo your odds are better, much better.

Use the bingo bonus

Why would you not take advantage of the **free bingo bonus** offered? Don't just sign up to a site and then let your credit sit quietly until it runs out, use it. Using your free bingo bucks will help you maximize your potential. There are a couple of online bingo sites that will match your first deposit, meaning that you will double whatever you deposit. There are even a few more generous sites that'll multiple it by more than two, so be sure to do your research and make the most of all the online bingo offers. A number of bingo sites online also offer members exclusive bonuses, **promotions**, competitions, and tournaments, giving you even more opportunities to play and win. When you think about it playing one game of online bingo is super cheap, but if you want a chance to play bingo for the bigger jackpots, it's going to cost you quite a bit more, so instead of making so many deposits out of your own pocket, sign up for online promotions and newsletters to get all the inside news and bonus information first.

What about free bingo?

You'll also want to make sure that you take advantage of any sites that have free online bingo offers. Once you start exploring the different sites, you'll see that the majority of **bingo sites online** are more than generous when it comes to free online bingo offers. If you're a bingo novice, make the most of all the free games online and if you're lucky, you'll be able to work on increasing your stack. Perhaps you see it as a waste of time when a jackpot only offers you a couple of pounds as a reward, but it is free bingo, so every little bit counts and it will give you more of a chance to build up a kitty for later on for more serious bingo playing once you get the hang of it.

Choosing the right bingo game

There are many online bingo games on offer, but you don't want to just play any bingo game. You need to weigh everything up and calculate the costs of playing. Ask yourself the following questions 1. How much is the bingo game worth? 2. How much is each line worth? 3. How much does a bingo ticket cost? 4. What can be won? These are just a few questions which will help you determine which online bingo game you want to play. When you choose your game, familiarise yourself with all the rules, terms and conditions. 1. What kind of game is it? 2. Is it 75, 80 or **90 ball bingo**? 3. Is it a progressive jackpot bingo game? 4. Is it possible to continue playing until there's a winner? Being in the know is absolutely essential. It will give you more confidence when playing online bingo for cash, and it's what will ultimately set you apart from the rest.

Offers and promotions

Staying aware and keeping your eyes open for all the new offers available will also give you an advantage. This will give you the chance to stay ahead and beat everyone else to the offers (remember most of these offers are limited either in time or numbers). Stay ahead of the game and remain on your toes. Keep yourself updated and practice vigilance and patience, and don't forget to make the most of the moment. Bingo is supposed to be competitive, but it's also supposed to be exciting, so it's essential to bear these things in mind at all times.

Responsible Gambling: Gambling should be fun and never seen as a way to make money. Only gamble with money you can afford to lose. If you feel you may have a problem, visit [gambleaware.org](https://www.gambleaware.org) or call the National Gambling Helpline on 0808 8020 133. All sites featured on Top Online Bingo Sites are licensed by the UK Gambling Commission. You must be 18+ to gamble.
